

REPORT on Sensitization Work Shop for Start-up

Objectives:

To motivate and sensitize students to think on start-up by demonstrating real start-up entrepreneur and their success stories.

Date: 03/01/2023 (Tuesday)

Time: 11 a.m. onward

Location: Seminar Hall, 1st Floor Library Building, Govt. Polytechnic Kheda.

Description:

The Sensitization Work Shop for Start-up at the Institute was organized by Institution's Innovation Council (IIC) and SSIP Cell in collaboration with i-HUB of Education Department, Government of Gujarat. Total 150 students and 10 faculties have attended the workshop. Mr. Yash Pandya, Incubation Manager of i-HUB, has handled the session very nicely and given useful information about the working mechanism of Start-up and SSIP 2.0. Ms. Megha Gajjar has taken practical session by focusing on "Problem Statement & Solution" and students enjoyed a lot by self-performing exercise. The workshop was made very interesting by presence of four successful start-up entrepreneurs.

Ms. Sweta Prajapati delivered different modules of Cognitive Skills enhancement programs in the fields of Brainwaves, Neuroplasticity, and futuristic Brain-Computer Interface (BCI) Technology under her start-up "CerboTech Education P. Ltd".

Ms. Sarika Chitrodiya started her start-up in healthcare sector as "LymbEdge" for innovative services and products for people with limited mobility. It provide artificial upper limbs, supportive devices and mobility solutions that can improve quality of life. She shared her struggling experience and patience towards a journey from student to successful start-up.

Mr. Param Dhagia, a student of diploma pass out has started "Vulfosec" cybersecurity start-up to provide various security services with crowdsourcing techniques of various digital assets of the company. He shared his experience of how to become a successful start-up during the student life.

The last but not least, Mr. Pratik Vaghela started "Lily Ayurved LLP" hemp powder hurbles products in a wide range. He shared his success story on how a student from the small village can become a success start-up entrepreneur.

All the team members of i-HUB made the session very interesting students. The workshop was extremely useful to our budding Students, it has given them practical exposure of real success start-up at students age and many more on various start-up supported system. The hard effort of Dr. Pinkesh R. Shah - IIC President, Shri A. V. Prajapati – SSIP Coordinator and Prof. P.R. Dave – Principal made the event more success.

Benefits:

This workshop would be useful to students to think towards start-up and sensitize on creative thinking. This workshop would lead at least one or two successful start-up in near future.
